INCIDENT SUMMARY

From October 1-2, 2022, a flash flood swept through the Havasupai Reservation in Supai, AZ. After conducting joint PDAs, the Tribal Chairman submitted a request for a disaster declaration on November 30, 2022. By December 30, 2022, a Major Disaster Declaration was approved for the Havasupai Tribe who were designated for Public Assistance (CATs A thru G). All areas within the Havasupai Reservation are eligible for assistance under the Hazard Mitigation Grant Program.

Staff by Proficiency Level

FCO ASSESSMENT

Priorities

- Deliver integrated whole community (local, state, federal and voluntary agency) recovery solutions and outcomes to the impacted community focusing on equity and resilience.
- Maximize the use of Mitigation.

Outcomes

- Infrastructure: Restored, modernized, hardened and resilient systems.

TRANSITION TIMELINE

Recovery Support Functions (RSF)

Recovery Outcomes	
Housing	Housing: Adequate, resilient, accessible, and affordable housing
	1 All survivors whose primary residences were damaged or destroyed or were displaced by the disaster have returned and re-established residence in permanent housing within the affected community
	2 Survivors can afford post-disaster permanent housing units within the affected community without post-disaster assistance
	3 Post-disaster permanent housing units in the affected community meet or exceed recognized residential codes and standards and incorporate recommended mitigation measures appropriate to the area's hazards (e.g., flooding, fire, high winds), or include resiliency measures
Economic	Economic: Sustainable, diversified and resilient economy
	1 Business activities are resumed and restored, including those local and marginalized businesses and major employers
	2 Local and state government ability to facilitate and regulate business activities is restored
	3 Tax base and revenue streams from businesses are restored
	4 Communities have Comprehensive Economic Development Strategies that measures the recovery process
	5 Financial activities essential to credit and insurance coverage and flows are restored
Community Assistance	Community Recovery: Resilient recovery of SLTT communities
	1 Community Conditions Assessment + Community Profiles
	2 Status of emergency plans, such as the Mitigation plan and Pre-Disaster Recovery Plan
	3 Community engagement and communication strategy is in place for long-term recovery plan or strategy
	4 Mitigation and recovery projects have been implemented
	5 Inclusive communications strategy developed for long-term recovery planning or strategy

Recovery Outcomes	
Infrastructure	Infrastructure: Restored, modernized, hardened and resilient systems
	1 Power systems and fuel delivery services have been repaired, modernized, and strengthened for future disasters
	2 Water systems, dams, levees, and service capacities have been repaired, modernized, and strengthened for future disasters
	3 Communication systems and services have been repaired, modernized, and strengthened against future disasters
	4 Public and private transportation systems, to include those supporting marginalized areas are repaired and reliable
	5 Government and PNP facilities have been repaired, modernized and strengthened for future disasters
Health & Social Services	HSS: Sustainable and resilient health education and social service systems
	1 Households have safe drinking water and no hazardous and toxic materials
	2 Healthcare providers have resumed capacity to meet chronic or long-term health needs, as well as primary and emergency care
	3 Ensure survivors are provided necessary behavioral health and disaster case management services.
	4 Social Assistance programs that support vulnerable populations, e.g., have resumed delivery of financial and other materiel support and services to vulnerable segments of the community's population
	5 Schools are fully operational & providing full academic programs and can provide a safe, sanitary, and supportive environment
Natural Cultural Resources	NCR: Restored, preserved, risk-resistant and resilient resources
	1 Natural resources in the affected community, to include socially marginalized, have been restored to protect people and ecosystems
	2 Resources associated with entertainment, education, recreation, and tourism have been repaired, and public accessibility restored
	3 Access to raw material and other commodities that sustain the local economy has been restored
	4 Sites and artifacts associated with the community's heritage and identity have been stabilized/protected, and public accessibility to these sites has been restored

Recovery Outcomes

INFRASTRUCTURE : Restored, modernized, hardened and resilient systems

Outcome Indicator (I-3): Communication systems and services have been repaired, modernized, and strengthened against future disasters

- Integrated Early Warning System; operational architecture
- Critical messaging; mitigate risks to health and safety of the community and guests
- Flood risk mitigation strategies; flash-flood gauge readiness; push flood alerts and information to EOC
- Interagency partners: USACE, USGS, AZ DWR, FCC, FEMA R9 Emergency Communications

Outcome Indicator (I-4): Public and private transportation systems, to include those supporting marginalized areas are repaired and reliable

- Havasu Bridge destroyed in Oct 2022; critical transportation node; mitigation potential
- Main Supply Route; connects Campground with Village facilities and services
- FEMA PA project to replace Havasu Bridge; campground and hiking trail repair; security & Law Enforcement support; health clinic construction;
- Interagency partners: FEMA R9 PA & HMGP, Tribal Partners, BIA, IHS,
